For Immediate Release

Nebraska Environmental Trust Launches Online Portal For Upcoming 2018 Grant Application Cycle

Lincoln, NE –07/20/2017– The Nebraska Environmental Trust is providing an on-line application process for the 2018 funding cycle. The web address for the on-line application process is <https://environmentaltrustgrants.org>.

Applicants may log in and click the 'Create Account' button to continue to the registration page and complete the application form. The on-line process follows the long-standing NET application form for the cover page and subsequent sections.

If using the on-line application, no additional material will need to be mailed to NET.

The Trust will continue to accept submission of 2018 applications using our previous options of an e-mailed electronic application form and/or hard-copy. The electronic submission must be received in the office by midnight CDT on the application deadline date and a hard copy of the application must be received by the Trust no later than 5.00 p.m. CDT on the Friday following the deadline date.

The electronic submission must be complete and include all information required in a hard copy submission. The electronic submission uses the conventional email

method as opposed to the online application form. Completed applications can be e-mailed to the [Grants Administrator](#). The electronic form is available for download on the Trust's website.

Hard-copy submission - The Trust will also accept traditional submissions of applications. One copy of the completed application must be postmarked on or before the application deadline date. Hard copy submissions should be mailed to: The Nebraska Environmental Trust, P.O. Box 94913, Lincoln, NE 68509-4913.

Applications for 2018 Nebraska Environmental Trust funding are due on or before midnight Tuesday, September 5, 2017. Any changes to the Geographic distribution (GEO points) will be announced on the Trust website following the August 8, 2017 Board meeting.

The Nebraska Legislature created the Nebraska Environmental Trust in 1992. Using revenue from the Nebraska Lottery, the Trust has provided close to \$275 million in grants to over 2,000 projects across the state. Anyone – citizens, organizations, communities, farmers and businesses – can apply for funding to protect habitat, improve water quality and establish recycling programs in Nebraska. The Nebraska Environmental Trust works to preserve, protect and restore our natural resources for future generations.

For more information, you may contact Ms Sheila Johnson at 402- 471-1714.
